

Dear Parents,

Summer is upon us again. We are looking forward to working with your children next year. Recent studies show children need academic reinforcement during the summer months. Practice and reinforcing skills learned in 3rd grade over the summer will prepare your children for fourth grade. They will be working on **one book report (in cursive)** and **two online assignments**. All work is enclosed in this folder. This work will be factored into their first quarter math and LA grades. We strongly recommend that you sit down with your child and determine a workable schedule for completing the assignments, preferably one in which the work is spread out over the summer months.

We are pleased to tell you that part of your child's summer learning assignment will include IXL. IXL is a comprehensive learning program offering unlimited math and language arts practice problems in thousands of skills.

Your child has been given a list with 25 math skills and 15 language arts skills to practice on IXL this summer. Please help them keep track of their progress by filling out the assignment tracker each time they practice. Your child has the freedom to work at his or her own pace, but it is required that they practice for twenty-five minutes minimum per week. Five minutes every day is preferred. This will be a graded assignment for the beginning of next school year.

To get your child started on your home computer, please follow these easy steps:

1. Go to <https://www.IXL.com>

2. Enter your child's username and password in the upper right corner and click the button to sign in.
(Note: If the username and password are not listed below, they will be provided separately.)

Username _____

Password _____

3. Click on the name of the subject you'd like to work on at the top of the page and navigate to your child's grade level.

4. Select a specific skill to practice from the list of skills. Please refer to your child's assignment tracker for the list of skills they need to work on.

If you notice your child struggling on an assigned skill, try having them practice the supporting skills which accompany that skill. You can use the Trouble Spots report and Question log to see how they are performing.

In addition to making practice more engaging, IXL is designed to help your child learn at his or her own pace. The program is adaptive and will adjust based on your child's demonstrated understanding of the material. All of your child's results are automatically saved, so they can practice from any device with an internet connection. For on-the-go practice, you can download IXL's free tablet apps for the iPad, Android, or Kindle and sign in with your child's username and password.

Please encourage your son or daughter to use IXL regularly this summer and we look forward to seeing you in the fall!

Sincerely,
The 4th Grade Team

2019 Summer Math Assignment for Rising 4th Graders
Suggested Math ixl.com Section

3rd Grade Objectives (These objectives are in the 3rd grade math tab)
Write Number in Words
Comparing with Addition and Subtraction
Place Value name up to hundred thousands
Value of a digit
Add two numbers up to three digits
Add two numbers up to three digits - word problems
Subtract numbers up to three digits
Subtract numbers up to three digits - word problems
Multiplication facts to 12
Multiply one-digit numbers by three-digit numbers
Division facts to 12
Addition, Subtraction, Multiplication and Division facts
Rounding to nearest ten and hundred only
Rounding Money Amounts
Count coins and bills- up to 5 dollars
Making change
Add and Subtract money amounts
Match clocks and time
Read clocks and write time
Elapsed time
Read a calendar
Read a thermometer
Measure using an inch ruler
Identify 2 dimensional shapes
Symmetry
Perimeter of rectangles
Identifying equal parts
Match fractions to models
Match fractions to models halves, thirds, and fourths
Certain, probable, unlikely, impossible

Challenge: Go to 4th grade Section and work on 4th grade math skills in ixl!
