

Dear Parents,

We are pleased to tell you that your child's summer learning assignment will include IXL. IXL is a comprehensive learning program offering unlimited math and language arts practice problems in thousands of skills.

Your child has been given a list with 25 math skills and 15 language arts skills to practice on IXL this summer. Please help them keep track of their progress by filling out the assignment tracker each time they practice. Your child has the freedom to work at his or her own pace, but it is required that they practice for twenty-five minutes minimum per week. Five minutes every day is preferred. This will be a graded assignment for the beginning of next school year.

To get your child started on your home computer, please follow these easy steps:

1. Go to <https://www.IXL.com>

2. Enter your child's username and password in the upper right corner and click the button to sign in.

(Note: If the username and password are not listed below, they will be provided separately.)

Username _____

Password _____

3. Click on the name of the subject you'd like to work on at the top of the page and navigate to your child's grade level.

4. Select a specific skill to practice from the list of skills. Please refer to your child's assignment tracker for the list of skills they need to work on.

If you notice your child struggling on an assigned skill, try having them practice the supporting skills which accompany that skill. You can use the Trouble Spots report and Question log to see how they are performing.

In addition to making practice more engaging, IXL is designed to help your child learn at his or her own pace. The program is adaptive and will adjust based on your child's demonstrated understanding of the material. All of your child's results are automatically saved, so they can practice from any device with an internet connection. For on-the-go practice, you can download IXL's free tablet apps for the iPad, Android, or Kindle and sign in with your child's username and password.

We hope you will encourage your son or daughter to use IXL regularly this summer and we look forward to seeing you in the fall!

Sincerely,
The 4th and 5th Grade Teams

Blessed Sacrament

2019 Summer Math Assignment for Rising 5th Graders

Suggested Math ixl.com 4th Grade Math Section

Objective
Input output tables with division, multiplication, addition and subtraction
Properties of Addition
Subtraction fill in the missing digits
Read a table
Interpret Line Graphs
Multiplication Facts to 12
Write variable equations for word problems
Division facts to 12
Interpret Bar Graphs
Add And Subtract Fractions with Like Denominators
Calculate Probability
Interpret Mean, Median, Mode and Range
Circle Graphs
Parallel, Perpendicular, Intersecting
Acute, right, obtuse, and straight angles
Similar and Congruent
Area of squares and rectangles
Elapsed Time
Equivalent Fractions
Add, subtract, multiply, and divide money amounts
Convert between improper fractions and mixed numbers
Place values in decimal numbers
Add and Subtract Decimals: word problems
Divide larger numbers by 1-digit numbers: word problems

Challenge: Go to 5th grade Section and work on 5th grade math skills in ixl!

2019 Summer Language Arts Assignment for Rising 5th Graders

Suggested LA ixl.com 4th Grade Language Arts Section
