

Dear Parents,

The students worked very hard in math this year, and to ensure they don't lose those skills over the summer, each student is required to practice math lessons using the IXL program.

The students will be asked to practice 25 different math skills over the summer. It is suggested that students create a schedule and set daily or weekly goals.

This will be a graded assignment for the beginning of next school year.

To get your child started on your home computer, please follow these easy steps:

1. Go to <https://www.IXL.com>

2. Enter your child's username and password in the upper right corner and click the button to sign in.  
(Note: If the username and password are not listed below, they will be provided separately.)

Username \_\_\_\_\_@bssdc

Password \_\_\_\_\_

3. Click on the MATH tab at the top of the page and select grade level 5.

4. Select a specific skill to practice from the list of skills. Please refer to your child's assignment tracker for the list of skills they need to work on. We have omitted the lesson numbers because IXL has a tendency to change the numbers and things get confusing.

**PLEASE NOTE:** The student will receive full credit for the lesson if they earn a Smart Score of 80 or higher.

If you notice your child struggling on an assigned skill, try having them practice the supporting skills which accompany that skill. You can use the Trouble Spots report and Question log to see how they are performing.

In addition to making practice more engaging, IXL is designed to help your child learn at his or her own pace. The program is adaptive and will adjust based on your child's demonstrated understanding of the material. All of your child's results are automatically saved, so they can practice from any device with an internet connection. For on-the-go practice, you can download IXL's free tablet apps for the iPad, Android, or Kindle and sign in with your child's username and password.

Please encourage your son or daughter to use IXL regularly this summer to keep those math skills sharp!

Sincerely,  
The 5<sup>th</sup> Grade Team
